Johnson Controls Marine producerer, leverer og servicere køling og HVAC anlæg. Med et globalt netværk af selskaber og nøje udvalgte samarbejdspartnere leverer Johnson Controls Marine topprofessionel service i alle dele af verden – essentielt for marine kunder, der har behov for service på stedet, hvor end deres fartøjer måtte være i drift.

Johnson Controls Marine yder naturligvis teknisk service og leverer reservedele døgnet rundt alle ugens dage. Det marine service personale er eksperter inden for deres felt og bakket op af erfarne køle- og marineingeniører tilbyder de følgende:

- Producent og leverandør af HVAC og køleanlæg  
f.eks. Sabroe, Stal, York, Gram og Frick
- Servicing af alle typer HVAC og køleanlæg
- Anlægsdesign af HVAC og køleanlæg
- Konsulent for skibsværfter og redere
- Konkurrencedygtige priser på elektriske og kontrol komponenter, almindelig køletilbehør og andre kølemærker som Bitzer, Bock og Danfoss

Desuden yder Johnson Controls Marine intelligent præventiv vedligeholdelse for at sikre, at den operationelle effektivitet fastholdes på et maksimum gennem hele et anlægs levetid, hvilket også forøger sikkerhed og minimerer nedetid. Den erfarne medarbejderstab hos Johnson Controls Marine kan tage sig af alt fra udskiftning af HVAC og køleudstyr over ændring af kølemidler til energieffektivisering. Inden for områderne offshore, flådefartøjer/Non combat, handels- og passagerfartøjer samt fiskeri har Johnson Controls Marine ekstra fokus på den lovgivning, de klasseregler, forhold og faktorer, som er særlige for hvert enkelt område.
